EDUCATION

B.Tech in Computer Science & Engineering (AI & ML)

Brainware University

Current (Pursuing 7th Sem)

CGPA: 8.21 (up to 6th Sem)

Sri Aurobindo Institute of Education

Class 12th (2023): 76% (ISC)

Class 10th (2021): 81.8% (ICSE)

SKILLS

Programming & Core CS

Python, OOP, Data Structures & Algorithms

Technologies & Web

Cloud Computing, Data Mining, HTML, CSS, JavaScript, React

Analytics & ML

NLP, TF-IDF Feature Extraction, Naive Bayes, Logistic Regression

Professional Skills

Team Leadership, Event Management, Public Speaking, Written & Verbal Comm.

Core Strengths

Analytical Thinking, Technical Problem Solving, Resource Scheduling, Operational Planning

LANGUAGES

- English (Fluent)
- Bengali (Native)
- Hindi (Fluent)

SUMMARY

Bachelor of Technology in Computer Science and Engineering student specializing in Artificial Intelligence & Machine Learning. Features a strong foundation in analytical thinking, technical problem-solving, and cloud computing fundamentals, combined with excellent communication skills. Experienced in building algorithmic models and leading campus activities.

VOLUNTEERING & LEADERSHIP

Founding Member | College Drama Club "Kalponik Rong"

- Planned and executed 2 major cultural events from inception to completion.
- Managed all operational aspects, resource scheduling, and end-to-end event execution.

Stage Anchor | Texibition 2025

- Hosted the main stage at Texibition 2025 for an audience of 50+ attendees.
- Introduced 15+ industry and academic speakers while managing continuous real-time event flow.

4th Dan Black Belt & Competitor | Karate

- International Silver and Bronze Medalist in Karate.
- Achieved 4th Dan Black Belt, demonstrating discipline, dedication, and long-term commitment to competitive martial arts.

PROJECTS

AI-Driven Unified Data Platform for Marine Insights (2025)

Python, HTML, CSS, JavaScript

- Developed an AI-driven platform concept to unify oceanographic, fisheries, and marine biodiversity datasets into a centralized system.
- Designed an interactive web interface to simplify marine data access, visualization, and ecosystem analysis.
- Integrated an AI-powered chatbot concept to assist researchers and stakeholders with intelligent data retrieval and insights.

Fake News Detection Using Machine Learning (2026)

Python, Machine Learning, NLP

- Developed an optimized machine learning model designed to accurately classify digital news articles as real or fake.
- Applied Natural Language Processing (NLP) workflows including thorough text cleaning and TF-IDF feature extraction.
- Trained and evaluated algorithmic classification performance utilizing Naive Bayes and Logistic Regression.
- Built an accessible user interface letting individuals paste target text inputs to retrieve instant validity predictions.

Inspirational Quotes Web Application (2026)

React, JavaScript, HTML, CSS

- Developed a responsive web application that displays inspirational quotes through an interactive user interface.
- Implemented dynamic quote functionality and a clean, user-friendly design.
- Deployed the application online using Vercel and maintained the project source code on GitHub.

CERTIFICATIONS & AWARDS

2nd Place – Texibition 2025 Prompters Event

Earned runner-up podium positioning during the competitive event framework.

SIH Internal Hackathon Presentation (Smart India Hackathon 2025)

Conceived and presented a technical solution centering on an AI-driven unified data platform built for integrating oceanographic, fisheries, and molecular biodiversity insights.

International Karate Silver & Bronze Medalist

Achieved international-level medals and earned a 4th Dan Black Belt in Karate.
